# Packaged Strawberry Plants

**Fancy, bright colored label.** Full planting instructions on back of each label.

We have developed a new type of Strawberry package for over-the-counter trade.

This package is not a bunch of Strawberry plants wrapped up — plants are individually laid in moss and rolled up so that plants will not come in close contact with each other and rot out the center of the bundle.

Under normal conditions plants can be kept on the counter for **two weeks** without any loss. Can be held longer if watered.

Plants shipped in special telescope carton. Just take off the cover and set it on the counter. No heated plants under any conditions. Can be watered from the top if necessary. Excess water runs out of bottom vent.

Packages packed with all tops up. Packed 40 packages per carton. The average weight per package is about 1¼ pounds.
